# SPONSORS & EXHIBITORS

The Organising Committee for the ANZAHPE/AMEA 2015 Conference extends its appreciation to the following sponsors and exhibitors for their invaluable commitment and support:

## PLATINUM SPONSORS

**Sponsor:** Central Coast Local Health District

**Stand:** 13 **Website:** [www.health.nsw.gov.au](http://www.health.nsw.gov.au)

Central Coast Local Health District is located approximately 110 kilometres north of Sydney and 130 kilometres south of Newcastle on the Central Coast of NSW. It covers an area of approximately 1680 square kilometres.

The Central Coast region is a popular retirement area, with approximately 6% of the NSW aged population. There is also a big growth in young families in the north of the District. Approximately 330,000 residents live in the area.

The District is overseen by a Board with the Chief Executive responsible for delivery of services. The District consists of four hospitals along with Mental Health and community based services. The hospitals have more than 800 beds for acute and sub-acute patients. Gosford and Wyong hold teaching hospital status and provide placement for students from a majority of clinical streams.

The Teaching and Research Unit, based at Gosford Hospital, represents a collaborative venture with the Faculty of Health & Medicine at the University of Newcastle. More than 200 students are on clinical placement on the Central Coast at any given time and receive their education not only on the wards and in the community, but also through the education and simulation facilities the District provides.

**Sponsor:** Flinders University

**MASTER OF CLINICAL EDUCATION (GRADUATE CERTIFICATE, GRADUATE DIPLOMA AND MASTERS BY RESEARCH)**

This articulated suite of courses aims to provide health professionals with advanced knowledge and skills to deliver quality education in health service settings.

Clinical Education is characterised by a symbiotic relationship between the learner, an experienced clinical educator and the health service.

The topics are totally online so if you are juggling a busy life you can work at your own pace.

There are some optional workshops for some of the topics as some clinicians like to learn in person and share ideas with others face to face.

You may wish to undertake one of our courses for various reasons:

- Your college may have introduced a stipulation that you also engage in assessable scholarly activities
- You wish to further your career in health professional education
- You may be a new educator or supervisor who wishes to ensure you have the skills required
- You may be an experienced educator who wishes to cement your skills

**Sponsor:** Health Education and Training Institute

**Stand:** 1 **Website:** [www.heti.nsw.gov.au](http://www.heti.nsw.gov.au)

The Health Education and Training Institute (HETI) is at the core of advancing the workforce capability of NSW Health, to improve the health of NSW and the working lives of staff through education and training. HETI supports the professional development of clinical and non-clinical staff, trainers, educators and supervisors across the state.

To achieve this, HETI works collaboratively with Local Health Districts and Specialty Networks (LHDNs) using the District HETI model to ensure localised training requirements are met.

HETI aims to deliver high-quality training resources and experiences that respond to the needs of the NSW Health workforce. It works across the full spectrum of clinical and non-clinical areas delivering discipline-specific and mandatory education and training. HETI also delivers programs in leadership, management, financial education, clinical supervision, simulation and more, as well as administering a range of scholarships and grants.

HETI is also engaged in improving health outcomes of rural and regional communities and Aboriginal and Torres Strait Islanders, with programs and scholarships to meet education and training needs in these areas. To find out more about HETI, go to [www.heti.nsw.gov.au](http://www.heti.nsw.gov.au)

**Sponsor:** Hunter New England Local Health District

**Stand:** 8 **Website:** [www.hnehealth.nsw.gov.au](http://www.hnehealth.nsw.gov.au)

Working for Hunter New England Health

Hunter New England Health is committed to the ongoing building of an organisation that lives our values. Our values are integral to providing a skilled and competent workforce.

We encourage collaboration, openness and respect in the workplace to create a sense of empowerment for our people to use their knowledge, skills and experience to provide excellent patient care.

Hunter New England is the largest employer in the region, a diverse area about the size of England. This beautiful area has appealed to many professionals seeking a more relaxed lifestyle and to indulge a passion for the great outdoors, while still maintaining a fulfilling career.

HNE Health, is recognised as a leader and an innovator in the healthcare industry. This is supported by comprehensive education programs for all doctors. Our doctors participate in Junior Medical Officer Education programs during their first two years post-graduate, have the option to participate in the Hospital Skills Program or alternatively enter into vocational training across all medical specialties. International Medical Graduates actively seek employment with HNE Health to participate in our specialised education program or enrol in the Workplace Based Assessment Program – an alternative option to completing the Australian Medical Council's Part II Clinical exam.

HNE Health partners with two universities in the District - the University of Newcastle and the University of New England both of which have medical schools. The Hunter Medical Research Institute (HMRI) which is Australia's only regionally based internationally competitive health and medical research institute with over 300 researchers across 8 campuses complements the academic and clinical education programs.

Who wouldn't want to work for HNE Health?

**Sponsor:** University of New England

**Stand:** 5 **Website:** [www.une.edu.au](http://www.une.edu.au)

The University of New England enhances the health and wellbeing of rural and regional communities through the education of future and current health practitioners. Active participation in interdisciplinary research and engaging in cross-institutional collaborations enables the Schools of Health and Rural Medicine to develop sustainable research and teaching & learning partnerships within and across the health sector at local, regional, national and international levels.

Our teaching programs include Medicine, Anatomy, Nursing, Social Work, Ageing and Disability/Community Services, Counselling and Mental Health, Health Management, Health Practice and Clinical Education.

As part of the Joint Medical Program with the University of Newcastle and Hunter New England and Central Coast Local Health Districts, the newly built Tablelands Clinical School (TCS) has opened up a range of new education and training opportunities for students and health professionals within the region, and provides access to some of the most active simulation laboratories in the state and advanced telehealth capabilities. The purpose-built building on the grounds of Armidale Hospital also hosts the Centre for Excellence in Health Education - an interdisciplinary research and collaboration hub to develop and maintain relationships within and across the health sector.

We look forward to welcoming you to our UNE stand where you can learn more about our clinical teaching, range of research higher degrees and the opportunities for collaboration with our highly qualified academic staff and practitioners.

# Welcome

On behalf of the Organising Committee, I welcome you to the combined conferences of the Australian & New Zealand Association for Health Professional Educators (ANZAHPE) and the Asian Medical Education Association (AMEA).

This unique coming together of delegates of both Conferences brings the opportunity for open discussion, networking and knowledge sharing throughout Australasia. We are also delighted that the Association for Medical Education in the Western Pacific Region will be meeting during our Conference and contributing to the scientific program.

Conference delegates will be learning from each other's expertise and experience across a wide range of topics addressing patient-centredness, stakeholder engagement and the latest innovations and developments in health professional education.

We are all looking forward to the inspiring presentations of our keynote speakers, and are pleased to have been able to include many interactive workshops and PeArLS in addition to the oral discussions and electronic posters.

The Conference planning has been a great team effort and we are grateful for the input of many including those in our Conference Scientific Committees and the Management Committees of both AMEA and ANZAHPE.

The University of Newcastle is very proud to be hosting this conference in its 50th Anniversary Year and we hope that you have some time to enjoy all that the Hunter Valley has to offer during your stay.

Welcome to Newcastle!

## ABOUT THE ASIAN MEDICAL EDUCATION ASSOCIATION (AMEA)

The Asian Medical Education Association (AMEA) is an institution-based association of the Asian medical schools which was established in June 2001 with the Secretariat based in the Medical Faculty of The University of Hong Kong. The aims of the Association are:

- To identify and recognize that medicine is globalized, and enhance the characteristic features and strengths of Asian medical education;
- To share information and experience about medical education; and
- To strengthen and promote good pedagogy and research on medical education.

Education is the foundation from which research and medical service will blossom and thrive. AMEA shall strive to embrace more member institutions and promote inter-school and multidisciplinary collaborations. It will also take a proactive role to raise its prominent profile as a leading association of medical education around the World.

## WELCOME FROM ANZAHPE

As President of the Australian and New Zealand Association for Health Professional Education (ANZAHPE) I would like to extend a warm welcome to ANZAHPE members, as well as other colleagues from across the region, who have travelled to the delightful city of Newcastle for this historic joint conference of ANZAHPE and the Asian Medical

Education Association (AMEA).

The Conference Organising Committee and the two Scientific Committees have assembled a diverse and compelling program of keynote addresses, oral sessions, workshops, posters and the famous ANZAHPE PeArLS that you are sure to find engaging and I hope will inspire you to innovations and scholarly developments in your own institutions in the year ahead.

ANZAHPE is delighted to have been able to work closely with AMEA on this joint Conference and we hope that this is the beginning of ongoing collaborations into the future.

AMEA is an organisation of respected institutions but ANZAHPE, in contrast, is an association of individual health professional educators. So, if you are not a member already, I would invite you to consider joining ANZAHPE, whether you live in Australasia or further afield in the Asia-Pacific region.

Over the next few days you will find that we are a friendly, informal and collegial bunch, who love learning from colleagues from different professions and different settings. I can assure you that you will be warmly welcomed into our fold and gain many opportunities to network and interact with others who share your passion for the education of health professionals. If you are interested in becoming a member, just drop by the ANZAHPE booth in the conference exhibition.

I hope you have a wonderful and invigorating time in Newcastle and look forward to the opportunity to meet you in person sometime during the event. Warmest regards

**Professor Gary D. Rogers**  
*President of ANZAHPE*

## WELCOME FROM AMEA

Dear Friends in Medical Education,  
On behalf of the Management Committee of AMEA, I would like to extend a very warm welcome to you to this AMEA meeting held in conjunction with ANZAHPE.

Led by the University of Hong Kong Faculty of Medicine, AMEA was founded in 2001 in Hong Kong to enhance

the exchange of medical education curriculum reform in the Asian region. Membership unit is on a school basis for which we believe will allow continuity of medical education evolutionary work to take place effectively. AMEA has grown from its initial membership of about 50 to the current membership of over 150.

Much exchange on medical education pertinent to the Asian Region has taken place over the past 14 years of AMEA meetings. This year, AMEA has extended its connectivity with the Pacific Region by having its meeting held in Newcastle Australia. The Management Committee is certain that this move will bring about more work synergy in the field of medical education which is the foundation of the medical profession.

I wish you all a fruitful and a pleasant AMEA meeting!

**Professor Grace Tang**  
*Chairman, Management Committee of AMEA*

## Shantou University Medical College

### A Place for Innovation, Dedication and Professionalism

Shantou University Medical College (SUMC) is an important component of Shantou University, a public university generously funded by the Li Ka Shing Foundation since its inception in 1981. SUMC is located in Shantou, a relatively small city in the south-east coast of Guangdong province, China. Over the past 14 years, SUMC has made rapid progress in medical curriculum reforms, scientific research, international collaboration and academic exchange. In 2009, SUMC became the first school in China to undergo the rigorous Inspection of the Clinical Medical Education Accreditation. With five affiliated hospitals, a total of 3,533 patient beds, and a newly designed medical campus to be inaugurated in mid 2015, SUMC continuously strives to be one of the best medical schools in mainland China. Further information on SUMC can be accessed at <http://www.med.stu.edu.cn/eng/> and for the University at <http://english.stu.edu.cn/info/>.

#### Employment Opportunities

To make our students more competitive internationally and to enhance efforts in internationalization of SUMC, we welcome western-trained physicians and nurses with at least 5 years clinical experience to join our school. The scope of work includes delivering didactic lectures, small group tuition and/or bedside teaching. The preferred length of stay is at least six-months. Chinese language ability is not a prerequisite. Physicians in any specialties are welcome but the following areas are of particular interest to meet our needs: General Practice, Obstetrics/Gynecology, Emergency Medicine, Critical Care Medicine, Nephrology, General Surgery and Otorhinolaryngology. Interested physicians and nurses may contact Dr. Karen Mai at [karenmai@stu.edu.cn](mailto:karenmai@stu.edu.cn).

#### International MBBS

With approval of the Ministry of Education of China, SUMC launched an international MBBS program in 2010. The program is a five-year innovative course tailored to international students who have a general interest in China and have the ambition to become an outstanding international clinician capable of practicing medicine in different countries around the world. Applications are open to graduates from an accredited high school and above. For more details please refer to <http://4ymc.med.stu.edu.cn/>. Interested applicants may contact Ms. Alison Zhang at [slzhang1@stu.edu.cn](mailto:slzhang1@stu.edu.cn).

## LANGUAGE

The official language of the Conference is English. If you require assistance with additional languages please see staff at the registration desk.

## BANKING & CREDIT CARDS

Visa, MasterCard and American Express will be accepted at the registration desk. Most hotels, large restaurants and shops will accept international credit cards, the most widely recognised being Visa, MasterCard and American Express.

Automatic teller machines are plentiful and situated throughout the city.

Banking hours are generally 0900 to 1600 hours and extended on Fridays to 1700 hours.

## EATERIES

Bistros, restaurants, cafes and coffee shops offer varied menus, prices and décor. Local specialties include seafood and Australian wines. At some restaurants you can keep the liquor bill down by taking your own wine or beer. These are called "BYO" restaurants, an abbreviation for "bring your own".

## PHOTOGRAPHY

The Conference hosts and organisers have arranged for photography onsite throughout the Conference. The images may be used for post-conference reports, case studies, marketing collateral and supplied to industry media if requested. If you do not wish for your photo to be taken, please inform an Arinex staff member at the registration desk onsite.

### The training solution for bedside cardiac assessment skills

For nearly 40 years, Harvey® The Cardiopulmonary Patient Simulator has been a proven simulation system to teach bedside cardiac assessment skills that transfer to real patients.

Harvey® realistically simulates nearly any cardiac disease at the touch of a button by varying blood pressure, pulses, heart sounds, murmurs and breath sounds.

Harvey® is the longest continuous university-based simulation project in medical education.

# Health and Rural Medicine at UNE

The University of New England enhances the health and wellbeing of rural and regional communities through the education of future and current health practitioners. Active participation in interdisciplinary research and engaging in cross-institutional collaborations enables the Schools of Health and Rural Medicine to develop sustainable research and teaching & learning partnerships within and across the health sector at local, regional, national and international levels.

Our teaching programs include Medicine, Anatomy, Nursing, Social Work, Ageing and Disability/Community Services, Counselling and Mental Health, Health Management, Health Practice and Clinical Education.

As part of the Joint Medical Program with the University of Newcastle and Hunter New England and Central Coast Local Health Districts, the newly built Tablelands Clinical School (TCS) has opened up a range of new education and training opportunities for students and health professionals within the region, and provides access to some of the most active simulation laboratories in the state and advanced telehealth capabilities. The purpose-built building on the grounds of Armidale Hospital also hosts the Centre for Excellence in Health Education – an interdisciplinary research and collaboration hub to develop and maintain relationships within and across the health sector.

## Research interests in the schools include:

- Health and well-being of rural and regional communities, including indigenous communities
- Rural health priorities
- Health workforce training and retention
- Patient-centred care
- Health service management
- Medical education
- Public health
- Epidemiology
- Health Services
- Mental health
- Clinical and health psychology
- Social policy including health inequity and social exclusion
- Human rights and social justice within health and medicine

We look forward to welcoming you to our UNE stand where you can learn more about our clinical teaching, range of research higher degrees and the opportunities for collaboration with our highly qualified academic staff and practitioners.
